Changelog

1. What is new

New Default theme, including:

- Full responsive layout

- Flat Design

- Bootstrap 2.3.1

- Filters on results page for all modules (except Blog)

- Event Calendar rebuilt to work properly with recurring events

- Added new fields for listing: video description, Facebook fan page and features

- New fields for page Contact Us

- "Like/Dislike" system for reviews

- Google maps added for deal detail page

- Added Facebook like button on home page

2. Changes

E-mail to friend removed from Default theme (replaced by Facebook like button)

Link "print" removed from detail pages

Link "share" removed from summary and detail view (replaced by the main social media buttons, i.e. Facebook, Twitter and Pinterest)

Search Engine verification section within site manager area updated

Dining Guide: label "Make a Reservation" changed for "Contact this listing" on listing detail view

Page "Map tuning" removed from site manager and members area (it can be done using the main form to add and edit items)

Site manager change themes interface: added a message asking if users want to create the categories automatically or not when Dining Guide is chosen for the first time
